

## Report from Palanca for 2019/20

The function of the Palanca member of Secretariat is to uphold in prayer the efforts of this group, the movement in general and teams in progress.

As the Secretariat's Palanca member, I prayed regularly for the Secretariat and the rectors of teams in progress for the men's and women's weekends. To support the movement in general, I sent palanca indicators to many national and international weekends around the world. An example of palanca indicators sent to other communities is shown below. With the onset of the Covid-19 pandemic, weekends were suspended. In that period, I sent palanca indicators to members of the Secretariat and continued to hold them and the movement at large in my prayers. As of July 2020, notifications of weekends started to resume in some places in Europe, Central America and South America.

Ultreya,

Karen Daley
